

Where Your Dreams Take Flight

Turkish Civil Aviation has entered a rapid growth trend since the beginning of 2000's. As a natural result of this development, a select group of captain pilots, who dedicated themselves to aviation, have foreseen that the need for pilots would increase and established AYJET Flight Training Organization in 2005.

 **The mission of AYJET** is to provide high quality pilot training to fulfil evolving pilot requirements of airline companies, through team spirit and dedication to success with no compromise on safety. **The vision of AYJET** is to become the most preferred and revered Flight Training Organization all over the World. When we departed with this vision once, the necessity of action to be taken, automatically comes with perfection.

In AYJET, qualified administrative personnel and theoretical knowledge instructors have been working nearby the in depth airline experienced pilots. Besides teaching the necessary knowledge and skills, AYJET strives for candidate pilots to further their aviation culture and discipline. In other words, not only to be a pilot but also to be an airman as well. AYJET is driven to ensure that airline companies who hire AYJET graduated pilots find them adequately trained. With its experienced, knowledgeable and specialized staff, AYJET not only complied with flight training standards, but also improves the standard and implementations which have been set by national and international authorities.

This allows AYJET to increase its quality of training continuously. AYJET aimed at creating standard not only to follow.

Flight records and maintenance of aircraft are carried out with precision and all flight and maintenance programs are managed and monitored by the software program, Flight Academy Management System (FAMS), developed by AYJET itself.

Flight safety is paramount at AYJET. With an outstanding safety record, AYJET envisions on maintaining its zero accident program. AYJET Safety Management and Compliance Monitoring Department ensures flight safety by implementing Safety Management System, according to national and international regulations and performing compliance monitoring program for flight training and aircraft maintenance activities, as well as by keeping relevant company documents up-to-date with international and national legislations.

It is a great honour and happiness for AYJET Flight Training Organization to be evaluated as winner of 2017 by aviation training and flight safety in Turkey by Winner Review. To deserve such an award gives

the feeling of proud and proves that we are on the right track. At the same time, this success is regarded as a great responsibility for the AYJET family. One of the reasons behind our success, is to work with people who are expert in their field and we provide them a warm, welcoming environment which they can feel happy and peaceful. Every AYJET personnel feels themselves as a member of AYJET family and the level of belonging is always highest. Our aim is to provide happiness and satisfaction for all our staff, students and alumni pilots.

AYJET conducts its theoretical training in English and in a contemporary atmosphere by knowledgeable and well experienced theoretical knowledge instructors. AYJET has a fleet consisting of 19 Diamond DA-20 SEP, three Diamond DA-42 Twinstar aircrafts, conveniently located at Hezarfen Airport making it an appropriate training environment away from Istanbul's congested air traffic.

For synthetic training, AYJET has three flight simulators FNPT II and one of them simulates two different aircraft which are SEP and Turboprop Beech King Air B200, which is convenient to Multi Crew Coordination (MCC) Training as well.

Although Turkey is not a member of EU and EASA, AYJET gives pilot training which is accordance with EASA standard and any additional requirements is not needed to convert Turkish CPL/IR license to EASA license.

As well as national students, AYJET has international students from Germany, France, Netherlands, Belgium, Japan, Spain, South Korea.

Especially after this meaningful award, AYJET hopes that international awareness will increase and that more international students will be accepted.

Because of AYJET's high qualified training, AYJET has started collaboration with Ozyegin University, one of Turkey's distinguished universities, in pilotage training in 2012. All flight trainings of Ozyegin University pilotage license degree program students are given by AYJET.

In addition, AYJET started another collaboration with Turkish Airlines in pilotage training in 2015 and has been providing pilots training for Turkish Airlines pilot candidates on behalf of Turkish Airlines.

AYJET has completed 30,800 hours of flight in the last year and

has reached the capacity of 150 graduated pilots annually.

Pilots who have graduated from AYJET are selected by airline companies, due to their outstanding knowledge and flight skills. Furthermore, positive feedback received by these airline companies continues to inspire and make the AYJET team proud. Since the day that AYJET was founded, 791 airline pilots have been trained in 12 years. 664 of AYJET alumni pilots have started to work on different airline companies. AYJET alumni employment rate is 84%. AYJET Alumni pilots fly in national airline companies such as Turkish Airlines, Pegasus, SunExpress etc. Recently, AYJET alumni pilots have started flying on global airways such as Emirates, Qatar Airways and Etihad Airways.

AYJET has earned an honest and respectful reputation until now. We will be continuing to work consistently in order to take our success to an even higher level.

Regarding your needs of flight training AYJET will be your personal consultant and solution.

As AYJET our motto is: **“AYJET, where your dreams take flight”**
